3-1-1

AFSC (SCF)

1. The Foreign Technology Division (FTD) understands that AFR 80-17 is to be cancelled in the near future. This action will automatically relieve AFSC/FTD of Project Blue Book responsibilities as defined in Paragraph 3b, AFR 80-17.
2. FTD has over 13,000 reports and related correspondence concerned with Project Blue Book. No direction has been provided to AFSC (FTD) by the Project Blue Book Program Monitor for the disposition of these records. The Program Monitor is the "Deputy Chief of Staff, Research and Development" (Para. 3a, AFR 80-17).
3. FTD recommends that the Air Force Archives, Air University, Maxwell Air Force Base, be made the permanent repository for these records. Further, recommend that AFSC obtain shipping instructions from the Program Monitor as early as practicable as the records will be ready to ship in about 30 days.
